

BORNACK SSE 02

Safe at any height

The SSE 02 fall arrest system stands for maximum safety and quality. The system complies with standards for fall arrest systems, such as the PPE Regulation (EU) 2016/425 and EN 353-1:2014+A1:2017, and is suitable for use as a reliable fall arrest system on stationary ladders.

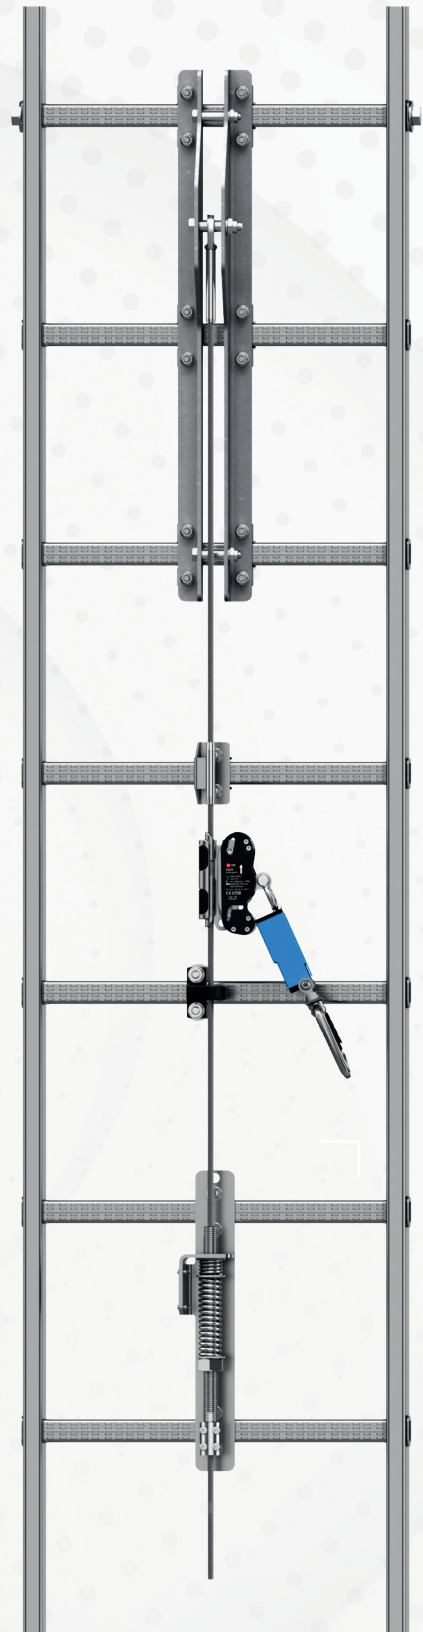

All self-retracting fall arrest devices are equipped with shock-absorbing elements to minimize impact forces, are largely made of high-quality stainless steel, and have been used successfully worldwide for many years - often precisely in applications where durable, high-quality construction is essential.

BENEFITS

- ✓ DURABLE OUTDOOR USE
- ✓ PANIC PROTECTION
- ✓ PROTECTION AGAINST WRONG INSTALLATION
- ✓ DRIVABLE CABLE GUIDE
- ✓ VERY LOW MAINTENANCE
- ✓ EASY INSTALLATION ON THE CLIMBING ROUTE
- ✓ CAN BE REMOVED FROM THE ROPE AT ANY TIME
- ✓ EASY RETROFIT
